# Capital Grant Funding Guidelines

Endorsed by Commission: 393

Published: 19 November 2019

## Introduction

1. The Queensland Catholic Education Commission (QCEC) administers capital funding under the Queensland Government Capital Assistance Scheme (CAS) and the Australian Government Capital Grants Program (CGP) to assist non-government school communities to improve capital infrastructure where they do not have the capacity to meet the total cost of the project.
2. In administering these capital funds, QCEC as the Block Grant Authority (BGA) under the CGP must assess the maximum contribution a school and its supporting community can make to the project<sup>1</sup>. As the Capital Assistance Authority (CAA) under the State CAS, QCEC must determine the school community's capacity to obtain financial resources for capital projects, including, for example, by donations, fundraising, loans and payment of fees<sup>2</sup>.
3. The eligibility of projects is a separate process and any grant funding calculated under these guidelines will only apply to eligible project components.
4. With a limited funding pool available, projects are prioritised by the Capital Assistance Assessment Committee. The grant funding calculated by these guidelines is contingent on the project being prioritised for funding.

## Capacity to contribute

5. The methodology for determining the financial contribution by applicant schools is determined by QCEC with advice from the QCEC Finance Committee.
6. QCEC uses the [National School Resourcing Board](#)'s definition of 'capacity to contribute', where the capacity to contribute is a function of the school community's income and wealth, with school community referring to parents and guardians of the students at the school.
7. Parents and guardians have the primary responsibility for selecting a school for their child, and for making a financial contribution towards schooling if the school is in the non-government sector. Parents and guardians must therefore be the central component of a capacity to contribute measure<sup>3</sup>.

## Socio-economic status scores

8. Under these guidelines, a school's socio-economic status (SES) score is used to measure its capacity to contribute to capital costs and to determine the size of the grant for each eligible project.
9. Under section 52 of the [Australian Education Act 2013](#), the Minister determines the SES score for every non-government school, subject to exclusions in subsection 6.
10. The methodology for calculating SES scores is outlined in section 23 of the [Australian Education Regulation 2013](#). The SES score currently applied by the Minister is based on the 2011 Census score however updated scores based on the 2016 Census are available.

<sup>1</sup> [Capital Grants Program Guidelines 2018](#), section 59

<sup>2</sup> [Education \(Capital Assistance\) Regulation 2015](#), part 1, section 1(1)(g)

<sup>3</sup> National School Resourcing Board: [Review of socio-economic status score methodology](#): Final report, June 2018 p.8.

11. SES scores provide a relative ranking of all non-government schools and are currently based on family and household income, education, and occupation characteristics of the areas in which students at each school reside. This information is used to generate a number representing the SES of one student cohort relative to other cohorts, with 100 being the Australian 'average' SES score.
12. The SES methodology is currently being reviewed by the Department. As it is unclear when new scores will become available, QCEC will allocate the lower of the 2011 or 2016 SES score to calculate grant funding for capital projects in 2020.
13. Demonstrated educational need for capital infrastructure remains the primary criteria for prioritising grant funding.
14. The SES score to be used in 2020 for all Catholic schools in Queensland is listed in Appendix A. Where a greenfield new school, that does not have an SES score at the time of applying, is in the same or similar area to an existing school, the SES of the 'like' school will be used, until the new school has its own SES score.

## Using SES scores to calculate capacity to contribute

15. The *Australian Education Act 2013* (section 54) specifies the capacity to contribute percentages that apply to each SES score.

Table 1. Capacity to Contribute percentages – Australian Education Act Paragraph 54

<b>Capacity to contribute percentage</b>			
<b>Item</b>	<b>SES score</b>	<b>Primary school</b>	<b>Secondary school</b>
1	93 or lower	10.00	10.00
2	94	10.86	12.19
3	95	11.71	14.38
4	96	12.57	16.56
5	97	13.43	18.75
6	98	14.29	20.94
7	99	15.14	23.13
8	100	16.00	25.31
9	101	17.90	27.50
10	102	19.80	29.69
11	103	21.70	31.88
12	104	23.60	34.06
13	105	25.50	36.25
14	106	27.40	38.44
15	107	29.30	40.63
16	108	31.20	42.81
17	109	33.10	45.00
18	110	35.00	47.19
19	111	37.62	49.38
20	112	40.23	51.56
21	113	42.85	53.75
22	114	45.46	55.94
23	115	48.08	58.13
24	116	50.69	60.31
25	117	53.31	62.50
26	118	55.92	64.69
27	119	58.54	66.88
28	120	61.15	69.06
29	121	64.92	71.25
30	122	68.69	73.44
31	123	72.46	75.63
32	124	76.23	77.81
33	125 or higher	80.00	80.00

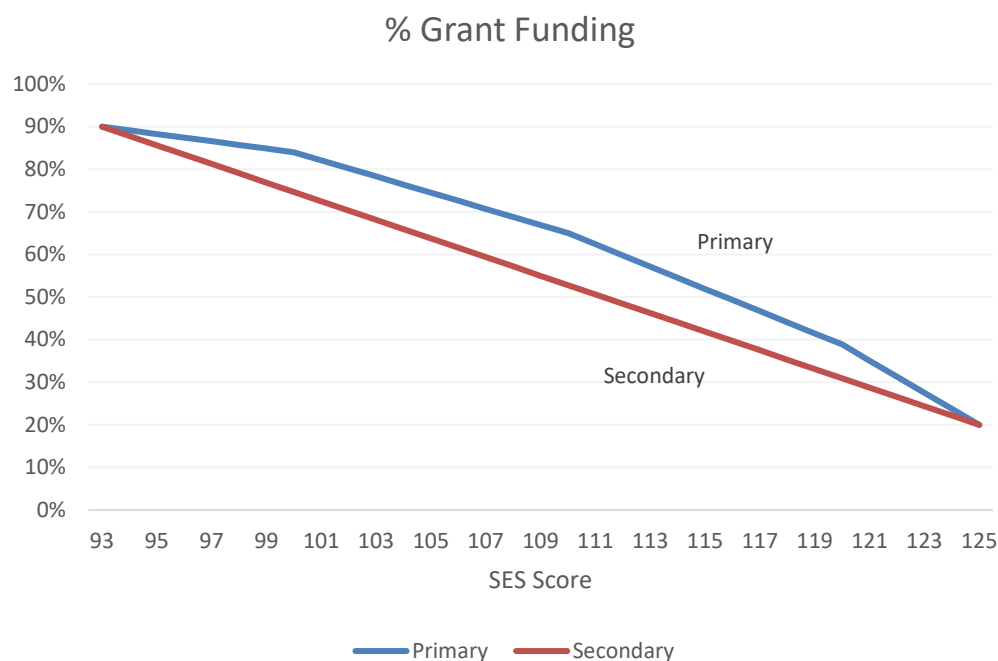

16. The Australian Government uses these percentages to calculate recurrent funding of non-government schools. A 'capacity to contribute' discount of 10 per cent is applied for schools with the lowest SES scores (meaning these schools are entitled to 90 per cent of the base Schooling

Resource Standard (SRS)). As SES scores increase, the base SRS amount is discounted further. For schools with the highest SES scores, a 'capacity to contribute' discount of 80 per cent is applied.

## Using capacity to contribute to calculate grant

17. QCEC uses the same methodology to determine grant funding for capital projects, with a maximum grant rate of 90 per cent of the total project cost provided to schools at SES 93 or lower. The grant rate is reduced to 20 per cent for schools at SES 125 or higher.

Figure 1. Proposed % Grant Funding by SES score based on Table 1.

18. The use of SES scores and capacity to contribute percentages provides greater certainty to applicants and ensures fair and consistent grant allocation across all applications.
19. The maximum level of 90% grant funding (plus 100% locality loading) applies to all Special Assistance Schools and Majority Indigenous Student Schools.

## Locality loading

20. In calculating the total project cost, schools outside of the Brisbane metropolitan area have an allowance for location. The grant funding percentage calculated by these guidelines will apply to the gross project cost with the locality allowance 100% grant funded.

## Fixed grant

21. Using the above methodology, the grant is calculated at the time of application without provision for subsequent upward revisions. No additional funding is available for project or cost variations or special circumstances.

22. If the approved project tender is lower than the project cost approved by the Minister the level of Government funding is reduced.
23. If the project is completed at a total cost lower than the approved project tender or as approved by the Minister, Government funding is reduced.
24. Catholic School Authorities can appeal QCEC's decision via the [QCEC appeal process](#).

## Process

25. To be considered for capital funding assistance, a Catholic School Authority must submit the capital application by 5pm on 31 March 2020.
26. The financial contribution assessment no longer requires a separate application. The level of grant funding will be calculated based on the SES score in Appendix A and the methodology set out in these guidelines.
27. Future stages of new schools continuing with their staged development will be assessed under these guidelines. Previous stages of these projects will be funded under the previous methodology applicable to the project and based on the percentage contribution related to the stage.
